

S Raghubir Pattnaik

5 Years 7 Months Overall Experience

Results-driven cybersecurity and IT professional with 5+ years of experience, currently pursuing an Executive MBA at IIM Indore to strengthen strategic, analytical, and leadership skills. Proven success in managing data security, including leading large-scale DLP migration projects and optimizing policies to reduce false positives. Skilled in Agile methodologies, having contributed to modernizing a taxation system with sprint demos and defect management. Recognized for cross-functional collaboration, risk assessment, and delivering impactful insights to leadership. Passionate about blending technical expertise with business strategy to drive organizational growth and innovation.

Experience

Infosys

1 Year 6 Months

Senior Associate Consultant

Oct' 23 - Mar' 25

- Led migration of **40k+ client machines** from Symantec to MS Purview DLP with minimal disruption
- **Optimized DLP policies** post-migration, reducing **false positives** from **40% to under 5%** and improving incident triage accuracy
- Implemented **process automation** which reduced manual intervention and optimized resource allocation

- **Led 10-member team** in phase-wise DLP migration, driving bug identification and testing to ensure seamless implementation.
- **Handled end-to-end incident response**, conducting root cause analysis and implementing security measures
- **Presented security insights** and updates to **client leadership** during regular business reviews, enhancing cybersecurity initiatives
- **Supported cross-functional global teams** of the client in delivering data security solutions, ensuring seamless service and policy alignment

Infosys

1 Year 6 Months
Associate Consultant

Apr' 22 - Sep' 23

- Recognized gaps in Incident Management documentation, **created a detailed SOP to standardize workflows**, resulting in improved process clarity and faster team onboarding
- **Automated Symantec DLP report generation** for client, reducing manual effort and improving reporting efficiency
- **Spearheaded the upgrade** of Symantec DLP from version 15.7 to 16 across **40K+ client machines**, enhancing data protection and system performance
- **Led a team of 6 in investigating 100K–150K data security incidents** monthly, ensuring timely resolution and compliance with security protocols

Infosys

2 Years 3 Months
Test Engineer

Jan' 20 - Mar' 22

- **Contributed to modernizing the taxation system** for improved user experience and accurate tax processing.
- Ensured timely deployment and enhanced user experience by **executing end-to-end testing of 10+ critical UCs** for CPC 2.0 Back Office Portal.
- **Reviewed BRDs & technical specs** to ensure alignment between business needs and system implementation
- **Developed test plans and test cases** to validate system functionalities and reduce post-release defects
- **Led sprint demos for Product Owner**, enabling continuous feedback and alignment with project goals
- **Logged and tracked defects using a Defect Management Tool**, enabling timely resolution and enhanced product quality.

Infosys

5 Months
Systems Engineer Trainee

Aug' 19 - Dec' 19

- Technical Proficiency: Trained in Python (OOPs, Data Structures) and MySQL during generic training
- Advanced Training: Specialized in Java, Hibernate, and Performance Testing, **securing an 87% overall score**
- Recognition: **Earned the "High Performer" tag** for outstanding performance throughout the training program
